SOURCE OF DATA

The information contained in this Traffic Crash Facts booklet is extracted from enforcement agency long-form reports of traffic crashes. A law enforcement officer called to the scene of a traffic crash which causes a specified level of property damage or any level of personal injury is required to submit a full-length (long-form) written report when certain criteria are met. These criteria are specified by Florida law in Section 316.066 (3)(a), F.S. Prior to October 1, 1989, the long-form reporting criteria were:

Motor vehicle crashes resulting in death or personal injury;

Motor vehicle crashes in which one or more of the following conditions occur:

1. Leaving the scene involving death or personal injury (Section 316.027 (2), F.S.);
2. Leaving the scene involving damage to an attended vehicle or property (Section 316.061 (1), F.S.);
3. Driving while under the influence of alcoholic beverages, chemical substances, or controlled substances or with unlawful blood alcohol level (Section 316.193, F.S.);
4. Rendering a vehicle inoperative to a degree which requires a wrecker to remove it from traffic.

Effective October 1, 1989, the reporting criteria were revised as follows:

Long-form reports by enforcement officers are discretionary for non-injury crashes causing towaway damage (modifies item 4 above);

The dollar amount of estimated damage in non-injury crashes, which determines whether any written report is required, is increased from $100 total to $500 for any single vehicle or other property.

Readers should note that these revisions have the effect of reducing the number of non-injury crashes required to be reported to the Department. Changes made effective October 1, 1989 also reduced reporting of non-injury crashes. Any figures presented in this publication that include such crashes, such as total traffic crash counts, will reflect these changes. Data on traffic crashes involving death, injury, or other criteria for law enforcement long-form reports as outlined above are not affected.

A copy of the long-form report used by all law enforcement agencies is included as an Appendix to this publication.

DEFINITION OF TERMS

The following terms are defined as they apply to the crash data presented in this publication. These definitions may differ from legal or other uses of the same terms.

Alcohol-related traffic crash - A crash involving a driver and/or pedestrian for whom alcohol use was reported (does not presume intoxication). Alcohol-related figures also include cases with blood alcohol content test results pending.

Bicycle - A vehicle propelled solely by human power or a motorized bicycle propelled by a combination of human power and an electric helper motor rated at not more than 200 watts. (This term does not include a vehicle with a seat height of no more than 25 inches from the ground when the seat is adjusted to its highest position, or a scooter or similar device.)

Bicyclist - The driver of a bicycle. A passenger on a bicycle is considered a vehicle passenger.

Fatal traffic crash - A traffic crash that results in one or more fatalities within ninety days of occurrence.

Moped - A motor-powered cycle with a pedal-activated motor and 2 brake horsepower maximum.

Motor vehicle - Any motorized vehicle not operating on rails.

Motorcycle - A motor vehicle, with a seat or saddle for the use of the driver, traveling with no more than three wheels in contact with the ground, excluding a tractor or a moped.

Motorcyclist - The driver of a motorcycle. A passenger on a motorcycle is considered a vehicle passenger.

Rural traffic crash - A crash that occurs outside the city limits or within the limits of a city with a population of less than 2,500.

Traffic crash - A crash involving at least one motor vehicle on a trafficway that is open to the public. The term "crash" in this publication is equivalent to the term "accident" as used in previous editions and standard summary tables.

Traffic fatality - The death of a person as a direct result of a traffic crash within ninety days of the crash occurrence.

Urban traffic crash - A crash that occurs within the limits of cities and certain other police jurisdictions with populations of 2,500 or more.
